The Levee at Davis Island, in Mississippi, Breaks.

About Twenty-Five Hundred People Will Be Compelled to Move.

But Little Change in the Situation Throughout the Upper Delta-The River is Stationary at Greenville-The Work of the Great Flood.

MEMPHIS, Tenn., April 13.—The mighty sweep of the waters south of Vicksburg has at last had its effect upon the lower levees. Monday night a telegram from Tallelah, La., reports that the levee which protects Davis island has given away and the island will in all probability be flooded. Twenty-five hundred people inhabit Davis island, which consists of about five thousand acres of land. The place is situated in Warren county, Miss.

Throughout the Upper Delta the flood situation shows little change since last reports. The work of government relief has been actively inaugurated. Many poor people are being fed and housed at Greenville, Rosedale, Helena, Friar's Point and other points along the river. A relief steamer is now plying up the St. Francis river with food and forage for man and beast.

At Helena the river has fallen twotenths of a foot in the past 24 hours. The weather observer at that point said Monday night that a steady fall will be noted in the river despite the rise at Cairo and upper river points. The Williamson crevasse has widened considerably, but the velocity of the water has been checked and no further breaks are feared.

At Greenville the river was stationary Monday night. Capt. H. C. Martin, representing the secretary of war, arrived at Greenville Monday, and is now thoroughly investigating the needs of the overflowed sufferers in that territory, and will base his report as to the amount of rations to be distributed in Washington county upon the result of his observations. Capt. Martin and others made a trip by skiff through a portion of the overflowed country Monday afternoon. He witnessed many evidences of the fearful work of the great flood. Fully 3,000 Negroes in Washington county alone are penniless and must be taken care

At Memphis the river is still falling slowly, the weather bureau Monday night reporting a fall of one-tenth of of a foot in 24 hours. The river at Cairo and points north

is rising. Sr. Joseph, La., April 13.-The steamer St Joseph arrived here Monday evening, having been detained at Ursinal plantation on Davis island, taking on women and children, and mules, cattle and other domestic animals. It was not apparent to the people on the boat that the planters were moving out It was ascertained, however, that they feared the levees would not stand much longer, though every effort has been made to hold them. Monday night the water overtopped them in several places, creating something of a panic, causing the exodus which

took place Monday. VICKSBURG, April 13.—Tallelah, La. reports that the levee at Davis islands this county, broke Monday evening, opposite Ashwood, La.; 2,500 people live on the island.

now adds a few inches to the river's height and the long-expected crest of the flood wave is on the move. If ought to reach here in a few days. In the meantime the anxiety is increasing all along the line, for more weak spots are developing. From North Louisiana comes the news that the Biggs levee, below Vicksburg, sustained a terrific attack and nearly succumbed, but relief was prompt. Just above New Orleans comes the news of three weak spots almost in a row—one in St. Charles parish and the other two at Hanson City and Camp Parapet. A break at either of the latter two points would involve considerable Illinois Central property and send the water knocking at the door of New Orleans. Nowever, there is a protecting levee just above the city, reaching clear across from the river to the lake. so that the water would run into the latter body. The city is protected against a rise in the lake by a costly system of levees. Another weak spot is on the opposite bank of the river, just below the city, but large forces have been at work there for three days and nights.

Fire in St. Louis. Sr. Louis, April 13.—The five-story building at Main street and Park avenue, occupied by the St. Louis Refrigerator and Wooden Cutter Manufacturing Co., was partially destroyed by fire Monday. The loss is estimated at \$60,000, covering the building and contents, which were partially irsured. At the time of the tornado last May this building was entirely destroyed by the wind and then burned. Two firemen and a boy were injured by falling walls, but not fatally hurt.

American Prisoners in Cuba to Be Given Freedom.

The Good Work Will Be Begun Within the Next Ten Days.

Among the Released Will Be Several Whose Cases Were the Subject of Much Diplomatic Correspondence -Destitution on the Island.

KEY WEST, Fla., April 13.-A wholesale discharge of Americans from Cuban juils is about to take place. It will begin within the next ten days and is the result of the entirely new policy of Spain toward American citi- Martinez on a charge of rebellion. zens. The beginning of the good work came when Jose D. Amieva was turned out of Cabanas, as was reported Sunday. The next American to go free will be J. C. Cepro, who is now locked up in Santa Clara. Cepro has been in jail 14 months. He was an engineer on the New York Central railroad. He married in Syracuse and came down here to help fight the battles of Cuba, and he fought so savagely that Gomez rebuked him for disobeying orders. Cepro hurried to the Spanish and claimed amnesty. He was given a written pardon, but before he could leave the island he was locked up.

Young Aguirre will regain his liberty about the same time. Aguirre came down here, joined the patriots, and then tried to get back to the states, presumably with information for the junta.

With Cepro and Aguirre will go free Ona Melton, the newspaper man, who was taken when the fillibuster Competitor was captured.

HAVANA, April 13 .- Destitution on the island is increasing to a shocking degree, and people in many towns are dying from hunger. General amine in many districts is threatened. If the devastation shall continue much longer and the producing classes be forced to remain idle an appeal will have to be made to Americans to send provisions for the starving people.

It is reported that a bad case of leprosy has been taken out of Cabanas from the cell next to the one where the Competitor's crew is confined.

HAVANA, April 13.-Jose Gonzales Carlos, charged as an insurgent incendiary, was shot at Cabanas fortress Monday morning.

#### BRIBERY CHARGES.

No Indictments Yet Brought Against Dr Hunter and His Lieutenants by the Grand Jury.

FRANKFORT, Ky., April 13.-The local grand jury is going deep into the bribery charges against Hunter and gressman Wilson before the body members, including all those who contend that Dr. Hunter was in summoned and examined. Later, Capt. Gaines who swears that Dr. Hunter New York, April 13.-Mrs. Isabella came to his house on the night mentioned, was recalled and afterward his wife went into the jury room.

A part of Hunter's testimony was a reiteration of his public statement that he had never seen Gaines and never was in his home in his life. The jury adjourned for the day without bringing any indiotments or other reports. It is reported that the investigation will take a wider scope at Tuesday's session. Meanwhile, the harm, if any, done Hunter by these charges and their publicity, are in a measure discounted by a break between the Blackburn democrats and the gold democrats. The latter have been assisting in breaking a quorum because of the imminent chance of Hunter's election. They say that they will do so no longer.

name of H. J. Sanford confessed Monday that his real name is C. F. Moore and that he is the manager of the U. S. Fuel Economizing Co. at 1005 Woodland avenue, Cleveland. Investigation shows this to be true and that his wife and partners knew nothing of his forgeries, supposing that his frequent trips out of the city were in the interest of the company, which was just being started. Moore was taken Monday to Ft. Wayne, Ind., by a Pinkerton detective, there to stand trial on several charges of forgery.
